Children's Art Programs at the Guild

Alison Amelchenko said, "The Guild has a fun and educational children's art program directed by Alison Amelchenko and Carol Colvin (teen instructor). The year round classes offer classical drawing and painting techniques, composition and perspective, and color theory. The "unplugged" atmosphere encourages the young artists to explore their imagination in an open minded class for learning, sociability and fun."

Carol Colvin said, "The students in my class are all working on individual projects. Each of them at their own level, with their own abilities. My goal as instructor, is to build on their strengths, and expand their work with an understanding of composition, value differences and painting/drawing skill and use of materials. Some students are working in pastel, charcoal, and watercolor."

I would like to take this opportunity to thank all of our volunteer hostesses who have signed up for this task.

August 5th - Kath Gregitis

September 9th - Donna Nicosia

October 7th - Wendy Kovacs

November 4th - Irene & Russ Porter

December 1st - Holiday Reception
(Sonia Schories?)

I would like to thank all of our helpers who wanted to be a part of our team over these past few months, especially Renate Kupatt & Barbara Dela Cuesta. Hostess + helpers have all done an outstanding job in making our Sunday Reception a huge success. Your efforts are always appreciated & table scaping is always fun!

Another special thanks to Richard & Florence Boland. Together their Solo Show was very well attended & very well received. They were very generous in filling our 'finger food table' with lots of tasty offerings.

If anyone has any backyard or garden flowers to bring in for our Sunday Receptions, that would be great! Last thought - all Member Show participants are encouraged to bring in any type of 'finger food' to complete some empty spaces at our buffet table.

Till next month, Marcie Falconetti ~ marciefalco@aol.com ~ 732-818-0849
